## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 - 51, drawn to Rendering Properties of a 3D Object, classified in class 345, subclass 848.
  - II. Claims 52 – 59, drawn to Delivering Interactive Information to a Potential Customer, classified in class 345, subclass 804.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because group 1 render properties or characteristics of the various 3D objects while group 2 makes information in the form of objects available to potential users. The subcombination has a separate utility such as a design function vs. an information delivery function.
3. A telephone call was made to WILLIAM C FUESS on 2-28-2003 to request an oral election to the above restriction requirement, but did not result in an election being made. When the Examiner attempted to make a phone call to the above attorney using

Art Unit: 2174

the phone number of record provided to the Office, the said phone number was apparently non-working without further information.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i)..

#### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J Joseph whose telephone number is 703-305-3917. The examiner can normally be reached on 7:30 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on 703-308-0640.
